

# THE PATRIOT DIFFERENCE

At Patriot Broadband Technologies, we pride ourselves on delivering unparalleled project management and superior service quality.

Our project management philosophy centers on breaking jobs down into manageable segments, allowing us to capture progress at a granular level. This detailed approach ensures meticulous oversight, optimized talent utilization, and cost efficiency, ultimately providing clients with superior project outcomes and peace of mind.

## PROJECT MANAGEMENT EXCELLENCE

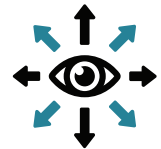

Through Fulcrum, our powerful field data collection and management platform, we can streamline operations and improve data accuracy. The easy-to-use interface allows us to capture geotagged photos, videos, and inspection data, all of which can be integrated seamlessly with other systems.

- ▲ **Field Data Capture:** Utilize Fulcrum to capture GIS data tagged pictures for future reference.
- ▲ **Live Updates:** Receive real-time updates of work completed, and take the guesswork out of project management.
- ▲ **Quality Control:** Instant quality control checks allow issues to be identified and corrected faster than relying solely on in-field QC.
- ▲ **Comprehensive Dashboard:** Monitor overall project and completion status of all job aspects with ease.
- ▲ **Validation and Dispute Resolution:** Use before and after photos to eliminate damage disputes and validate pole attachment issues.
- ▲ **Versatile Export Options:** Fulcrum data can be exported in various file types, for flexibility in reporting, analysis and integration into your systems.

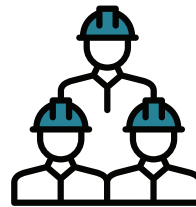

## WHAT TO EXPECT FROM OUR PROJECT DELIVERY

**Informed Decision-Making**  
Real-time data enables quick, data-driven decisions.

**Enhanced Oversight**  
Instant feedback and tracking to maintain high QA standards and smoother execution.

**Optimized Talent Utilization**  
Effective deployment and workflow of local talent to ensure high-quality work.

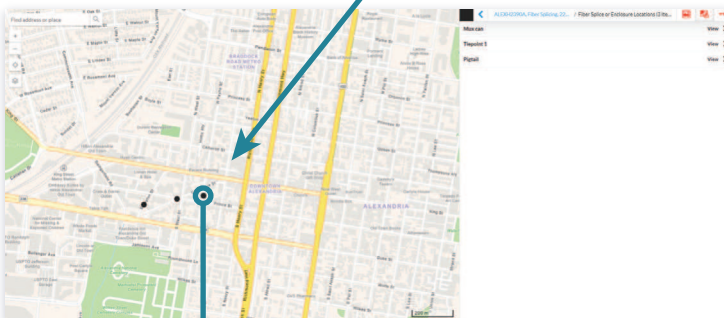

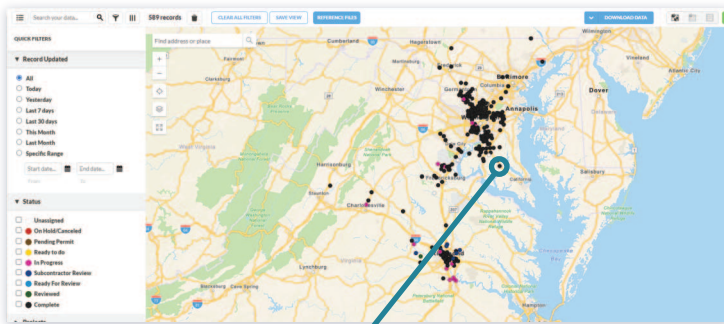

**Cost Efficiency**  
Ultra efficient oversight, and real-time adjustments to keep costs down.

*"Patriot's real-time project management has been a game-changer. We now require it for all our future projects."*

-Director Network Expansion, ISP Client

### A CLOSER LOOK AT PROJECT DELIVERY

Navigate quickly from project overview to task-specific images.

Access detailed, real-time updates for complete transparency and informed decision making.

## WHY OUR CLIENTS CHOOSE PATRIOT

By choosing Patriot Broadband Technologies, you gain detailed management that enhances oversight and minimizes errors, ensuring smoother project execution.

Our management tools and approach allow field teams to focus on putting quality work in place, ultimately reducing paperwork while increasing the ease, timeliness and quality of information. This gives the entire team real-time data for informed decisions, instant quality assurance feedback, and transparent project tracking, providing confidence and peace of mind throughout your project.

- ▲ **Real-Time Updates:** Stay informed with the latest project statuses, enhancing field validation and future upgrades/designs.
- ▲ **Transparency & Satisfaction:** Clients can log in to see the progress of their projects, ensuring clear communication and satisfaction.
- ▲ **End-to-End Solutions:** We manage all aspects of your project, ensuring seamless deployment, all while making the process easy for you.
